NOSE RING SIZING

GAUGE SIZES

The gauge size is the thickness of the bar that goes through your piercing. The thicker the barbell, the lower the gauge size. So a 12 gauge (or 12G) barbell is much thicker than a 20 gauge (20G) barbell.

NOSE RING SIZING

LENGTH

5/8" - 16 mm

9/16" - 14 mm

1/2" - 13 mm

The length of your piercing jewelry refers to the wearable length of the barbell that goes through your piercing. It is measured from the top to the bottom of the straight barbell and does not include the balls or charms.

1/4" - 6 mm

5/16" - 8 mm
